So, let's dive in ...

Secret # 1. *Catch a Vision*

In order to POP your biz to 300K or more you must **crystallize your VISION** so fiercely in your mind that you can **SEE** it in the dark baby! When you can **SEE** clearly the **FEAR** goes away and melts into your desires.

Our first step together is for you to **Catch YOUR Vision**. You need to get a BIG PIC feel and tone of what's to come. You have to **CATCH a VISION** and allow this vision to powerfully pull you forward.

Answer this question...

What is it that you truly desire?

Dream, visualize and journal about how you'd live your life if you were abundantly supported by all of the money and freedom in the world.

***Action Item: Get Crystal Clear. Write about your VISION here:**

Secret # 2. *Own your Voice*

Now that you have your vision and you know what you want and where you are headed it's time to **OWN your VOICE**.

I believe that you have gone through your life experience – the highs and lows, the good, the bad and the ugly for a reason.

You are a unique emanation of God/Source/Love. You are like an individual sunbeam radiating from the sun.

You were born for a purpose and of course that purpose was meant to live in JOY, love, freedom, flexibility and limitlessness.

I believe that we all have a tribe of people we are contracted to on a soul level to serve and support on their path either for a long time or just a small part of their journey.

You matter! And you and your life experience are **WORTHY** of every desire and dream you have in your heart and you can have it all!

You are meant to serve the clients that you absolutely **LOVE working with,** and when you are working with them, you feel like you could do it all day long!

Your ideal clients energize and inspire you for many reasons, one being that they remind you of where you were a few years / months back. Now that you are on the other side of your issue / problem you can really help your peeps.

Rest assured you don't have to be totally **HEALED and transformed;** you just have to be a few steps ahead of your ideal clients. **It's like you are a 3rd grader and they are in 1st grade.**

**Ahhh..... that takes
the pressure off!**

To Support You in Defining your VOICE...

Confidently answer the question “Who am I?”

Stand in your “I AM” presence for all of the world to see. This is a throat chakra healer at its finest! Knowing who you are and confidently standing in yourself will magnetize money, ideal clients and amazing opportunities your way. Stop being afraid of being seen and heard for who you are and allow the abundance into your life!

Many entrepreneurs are afraid about how others will behave or what they will think or say in response to you.

Action Step: In the space below write about who you are by answering the following questions to help you get clear.

Who are you?

Who do you serve?

What do you do?

What kind of programs, products, packages do you offer and sell?

Secret # 3. Own your Value

To POP your biz to 6 figures and multiple six figures you MUST OWN your value.

This is such a DEEP and juicy topic. **Learning to OWN your value is a process and one that will deepen the more you serve your peeps and get visible.** Owning your value comes in stages as you grow and develop your skills as an expert.

Even though creative free spirited entrepreneurs like us don't exactly "fit in" to society's traditional expert roles, it's up to us to claim our space and put ourselves in the game of life instead of shrinking and playing small on the fringes of society. Do you feel me on this one?

Why do white collar defense lawyer's, plastic surgeons, professional ball players etc., get to make and charge more than everyone else? Because society puts values on them and because they put value on themselves!

Charging your worth and owning your value is a STANCE. It's a "come from." It's an air about you. It's a level of confidence in yourself, your work, your energy and your LIFE! You only have this ONE precious human life.

It takes time to grow this stance and get into this come from position!

- ✓ We're in it for the long haul right?
- ✓ You're not going backwards right?
- ✓ Chin up, sisters out and eyes on the prize, right?
- ✓ 95% of success is just showing up.

So, stay in the game. Keep working your 7 steps in this report and go out and get some more clients!

Secret # 4. *Get Visible*

Good work! Your VISION is powerfully pulling you forward. You're rocking your VOICE and you're owning your VALUE.

Now it's time to get **VISIBLE** - more visible than ever.

Because money wants to SEE you in order to be with you!

You've got to get VISIBLE baby! Stop hiding out in your yoga pants behind your computer. Get out there and speak, teach, network, make a video, and get a photo shoot. Do something anything that will increase your visibility.
